## CUBAN REFORMS

As Outlined by the New Spanish Colonial Missager - the Plan of Antonomy. MADRID,Oct. 27.—Senor Moret Prendergast, the new colonial minister, has outlined his plans for Cuban reforms

as follows: The autonomy which the cabinet of Senor Sagnata purposes to bestow upon the Islands of Cuba and Porto Rico in fulfillment of the engagement con-tracted in the manifesto of June 24, is a special autonomy founded on the as-

pications adopted in the platform of the Antillian autonomists and oot identical with the other colonial constitutions. It is clear that in its essential principles, the future constitutions of Cuba and Porto Rico agree with those colonial institutions that star; from self-government as the capital idea—self-legislation responsible to the government and the supremacy of the governor who either under that name or that of viceroy shall represent the mother country and who shall choose the ministers who shall be the executive in that colony.

"Starting from the above basis the project of the Spanish government contains the firstp artition of those concerns that belong to the colonial parliament and to the imperial parliament—that is, to the national cortes. The partition is founded upon a careful discrimination between what interests the islands themselves in a local sense and what is of national importance.

"The project in operation will interpret in the most generous manner the phrase, local interests since it will not only grant to the colonists complete control of all that relates to educational charity, public works, insular navigation, agriculture, industry, mines, etc., but it also entrusts to the representatives of self-government the right of drawing up their customs tariff without any limitations beyond those mutually arranged.

"With the metropolies to co-ordinate in their respective mercantile and commercial interests the above function will be peeformed by an insular chamber totally electoral in nature, without restriction as to subsequent sub-division into two similar chambers—that is the husse of representatives and the senste.

Members of this parliament shall be elected by the same suffrage system as that which regulates the elections in the peninsula. The same electoral body shall elect deputies to the Spanish cortes who are to representative of the central power shall choose the misters who are to be the executive body responsible to the insular department, thus completing the reorganization of

between the church and state.

"At the same time the new constitution shall grant to this Cuban people the use of and the protection afforded by the civil and political rights sanctioned by the Spanish constitution in such manner that this shall obtain in all it's integrity in the colonies, while hesides, there shall be established as in the United States, necessary positions to prevent the colonial parliament from any attempt to lessen, clog or delimit the rights of citizenship that are set forth in the national constitution."

Will Accept no Compromise. NEW YORK, Oct. 27.—Thomas Es-

trada Palma, the Cuban delegate to the United States, when asked his opinion of the Cuban reform proposed by the Spanish ministry, said: "As the repre-sentative of the Cuban provisional government, I am in position to state

government, I am in position to state most emphatically that the Cubans in arms will enter into no compromise with Spain. Cubans are fighting for absolute independence and they will entertain no peace proposals from the Spanish government based on anything but absolute independence.

"The Cuban patriots are firmly determined to carry on the struggle until their purpose is accomplished. They will listen to no proposition acknowledging Spanish authority over them. I am speaking for men who are fully resolved to give up their lives if need be, for their country's freedom, the aspirations of the Cubans. The Cubans will never accept autonomy. The Cuban will never accept autonomy. The Cuban will never accept autonomy. The Cuban problem must be settled this time once for all."

A mass meeting of Cubans will be held in New York soon, to voice opposi-tion to the Spanish proposals and de-clare for independence.

PHILADELPHIA, Pa., Oct. 27 .- Dr. Jose Congosto, Spanish consul here, who has tust been appointed secretary general of Cuba, says:

"The governing factor in my policy shell be liberality and fairness toward everyone. Another change which I will make will be in the treatment of acmake will be in the treatment of ac-credited representatives of American newspapers. Information which I pos-sess which can be made public, will be at their disposition. The reforms to be instituted are going to be genuine in every feature and the policy of harsh-ness that has hitherto prevailed in the government of the island, will be swept away without delay."

THOSE who believe chronic diarrhoes to be incurable should read what Mr. P. E. Grisham, of Gaars Mills, La., has to say on the subject, viz: "I have been a sufferer from chronic diarrhoea ever since the war and have tried all kinds of medicines for it. At last I found a remedy that effected a cure and that was Chamberlain's Colle, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for colle, cholera morbus, dysentery and diarrhoea. It is pleasant to take and never falls to effect a cure. 25 and 50 cent sizes for sale by druggists.

FINANCE AND TRADE

The Features of the Money and Stock Markets.

NEW YORK, Oct. 27 .- Money on call easy at 1@2 per cent; last loan 2 per cent; closed at 14.62 per cent. Prime mer-cantile paper 4.644 per cent. Sterling exchange heavy, with actual business in bankers' bills at \$4.85\%@4.85\% for demand and at \$4 82%@4 82% for 60 days. Posted rates \$4 83@4 83% and \$4 86@ 4 Sol4; commercial bills \$4 81%. Silver certificates 57@59c. Bar silver 58%c. Mexican dollars 45c.

The stock market looked strong for a time to-day and the level of prices soon after noon rose a point or over above last night's close in many stocks. But a renewal of reports that the Spanish reply to the representations of this govern-ment was of a tenor that threatened trouble caused the market to sell off to a point as much below last night's level as it had been above in the morning. This represented a very wide range in the fluc-tuations, extending to 4 points in Con-solidated Gas and about 2 points or over in Union Pacific, Sugar, Pacific Mail and

tuations, extending to 4 peints in Consolidated Gas and about 2 points or over in Union Pacific, Sugar, Pacific Mail and several other stocks and over a point for nearly all stocks. Union Pacific continued to absorb a large share of speculative interest and fell during the day to within ½6 of the lowest point of Monday, when the government's announced intention to postpone the foreclogure sale was regarded as threatening a collapse of the whole reorganization plan. The weakness of the stock was due to a report from sources not to be reorganization interests, that the lacrensed bid for the property would involve their taking up a corresponding amount of the proposed new securities, which would have otherwise accrued in the treasury of the reorganized company. This would, of fourse, place a corresponding proportion of the fixed charges shead of the stock of the reorganized company. The suggestion miss found currency that the committee might desire to increase the issue of first mortance bonds above the \$75,000,000 proposed notwithstanding the assertion of the reorganization is involved by their determination to bid in the Union Pacific main line for the full amount of the government's claim. Whatever the foundation for the rumor it helped to depress the firste of the stock to about what it was before the second \$6 assessment was recently paid. London was also a seller of the stock to-day in this market in contrast to its attitude yesterday. Arbitrage brokers in fact sold most of the international stocks while prices remained above the London parity. Sterling exchange yielded \$6 per cent in the actual rate of demand bills and ½ per cent in posted rates. Increased amounts which will have to be foreign finerest on account of the larger bid for the Union Pacific, was the cause of the weaker.

Sterling exchange yielded & per cent in the actual rate of demand bills and & per cent in posted rates. Increased amounts which will have to be foreign therest on account of the larger bild for the Union Pacific, was the cause of the weaker tone.

There was also said to be some liquidation of exchange which has been recently purchased for use as collateral with a view to leaving funds in London at the higher rate of interest prevailing there. The statement of St. Paul's net earnings for September showing an increase of over \$14,500 and rumurs of the heavy increase to be shown by the forthcoming furing the market about noon. The speculation in Burlington was the more active, rumor being free to expand the carnings in the absence of accurate information. The stock ruse at one time 1's per cent and there were over 40,000 shares deal to against \$4,000 in Union Pacific.

These two stocks absorbed one-third

of the total transactions. Prices of rali-road bonds were firm in the early deal-ings, but eased off in sympathy with stocks at the close. Total sales \$1,460,000. United states bonds were quiet and

The total sales of stocks to-day were 268,900 shares.

The Evening Post's London financial cablegram:

The stock markets were quiet to-day during the progress of the settlement and in view of the holiday on Monday next. The tone, however, was steady. Money is still fight and a large amount was borrowed from the Bank of England to-day. Americans were firm except Canada Pacific's, which were flat on New York and German selling.

Mines was better. It is ramored that the Deutsche Bank is ready to lend the Transvaal government 4,000,000 pounds subject to certain concessions being granted.

The Paris bourse was better but its ondition is not yet satisfactory. The Berlin market was quiet.

CHICAGO-The influences governing wheat to-day were as a rule favorable to higher prices at the opening. Liverpool had advanced quotations for wheat ld per cental before the trading commenced here. The predicted rain for the winter wheat region stopped west of the Mississippi and the domestic receipts of wheat were again comparatively light.

Chicago receipts were 168 cars, of which only three loads were of contract grade. Minneapolis and Duluth reported 76 cars against 887 a-week ago and 1.208 on the corresponding day of the year before. The price was also helped by the shipments from St. Louis and reports of large cash business at Duluth for export. All of the outside markets were strong. A feature was the demand for December, houses active on the "bull" side for some time past taking on considerable. May was not so eagerly sought for as it has been for some days, the consequence being a widening of the spread during the morning to 3% c. December, which closed yesterday at 94% @94% c, started with buyers at 94% @95 cand steadily advanced to 95% c. Offerings up to this time had been comparatively scarce, but at that price several of the large commission houses sold freely and a reaction to 95 followed. The prediction of rain for lithnois, Indiana and Missouri had some effect on the decline as did the report that foreigners, particularly the French were re-selling at the seaboard. At those figures, however, the demand again improved and the market became quite strong. Liverpool closed 1@134d higher 8md added to the firmness, as did the ray exports 681,000 bushels of which 178,000 bushels was in flour. The market was further advanced on liberal purchases by one of the houses which sold freely on the early buige, supposed to be for local professionals who replaced part of a "long" line. Before the advance was checked December had sold up to 96% c. New York reported 328,000 bushels under those of last year. Continental markets ruled lower. Paris wheat declined 5@10 and flour was off 28@30 centimes. Antwerp unchanged; No. 2 spring wheat was offered 8c per bushel under the December price to United Kingdom ports without bringing response. This fact brought the market down with a jolt and realizing became quite free. The report of the purchase of 205,000 bushels more No. 1 Northern at Duluth, making about 806,000 bushels in all destined for this market, al

buyers. The strength came largely from sympathy with other grains, a fair export inquiry existed. Receipts were posted at 208 cars; December ranged from 18%c to 18%c and closed 14.6%c higher at 18%@18%c.
Provisions were quiet. The market

Provisions were quiet. The market for a time was strong in sympathy with the grain markets and on the good cash business. Wool.

BOSTON—The American Wool and Cotton Reporter will say to-morrow of the wool trade: It has been a wearisome week in the wool market, so intensified has the dullness become. There has been a decline of another 10 per cent in the volume of sales and had it not been for the fact that a small number of houses engaged in disproportionately large, transactions, the number of houses engaged in disproportionately large transactions the
falling off would have been very
much more striking. No one wants to
buy wool at this time and no one apgears to swant to sell badly enough to
break prices materially. Some of the
dealers report that it would require
good sized concessions to induce much
speculative buying, but others report a
directly opposite state of affairs. Prices
are very well maintained at ¥70m 20%3 are very well maintained at \$70m 26% cents below the highest, asking prices of the boom. There has been a somewhat larger movement in carpet wools, but nearly every other kind of wool has remained very quiet.
